### 👤 PROFESSIONAL SUMMARY

Entry-level **Java Full Stack Developer** experienced in developing scalable, end-to-end web applications using **Java, Spring Boot, REST APIs, JWT, and React**, with strong emphasis on clean design, testing, and real-world product development.

### 🌐 LANGUAGES

Tamil

English

### 🧠 SKILLS

- Java (Core & Advanced)
- Spring Boot
- Spring MVC
- Spring Security (JWT)
- REST APIs
- JPA / Hibernate
- MySQL
- HTML5
- CSS3
- Tailwind CSS
- JavaScript (ES6+)
- React.js
- JUnit 5
- Git & GitHub
- Maven
- Postman

### 🎓 EDUCATION

#### Bachelor of Business Administration

Dr.Ambedkar Government Arts College

2014 – 2017 | Chennai, Tamil Nadu, India

### 📜 CERTIFICATES

#### Java Full Stack Development

Guvi Geek Network Private Limited

### 📁 PROJECTS

#### Learning Management System

Role-Based Online Learning Platform

- Built a role-based LMS with Admin, Instructor, and Student access using JWT authentication.
- Implemented course, lesson, and enrollment management with media uploads.
- Developed secure REST APIs, documented using Swagger, and deployed on Render.
- Written JUnit 5 & Mockito tests for backend services.

#### Smart Spend – Expense Tracker

Secure Expense Tracking & Budget Management System

- Developed a secure expense tracker with JWT authentication and email OTP verification.
- Implemented expense CRUD, category budgets, and real-time alerts using WebSocket.
- Built analytics dashboards and PDF/Excel report generation (iText, Apache POI).
- Deployed backend on Render and frontend on Netlify.

#### Movie Ticket Booking System

Full-Stack Online Movie Ticket Booking Platform

- Built a full-stack ticket booking system with movie, theater, show, and seat management.
- Implemented real-time seat locking to prevent double booking and ensure availability.
- Integrated JWT security, email notifications, and booking history.
- Deployed backend on Render and frontend on Netlify.
